### **We are still under Covid Mitigations**

With public health measures still in place, we can still offer education and care. Please let us know as soon as possible if you are positive so that we can care for the needs of the community as a whole and report accurately to Ministry of Education our community numbers.

When coming into the centre please make sure you:

- ◆ wear a mask
- ◆ social distance
- ◆ have good basic hygiene

We also ask that non essential visitors (including school age children) do not come into the Centre and only one parent or caregiver picks up/drops off at a time. As per usual, if you or your children are unwell, please do not come into the centre.

Thank you Evan's whānau for the awesome box of avocado's—lots of our tamariki are enjoying trying something new!

Massive thanks to **Reece Wine** for mowing our lawns —

We are excited to get lots of maintenance done through the term break
